THARANYA ASSOCIATES

About us

THARANYA ASSOCIATES is manned by competent engineers and technical officers of long track records in design production, construction and testing both destructive and non-destructive. We have experienced personnel in the field of design and also for preparation of detailed civil Drawings. We are capable of carrying out complete design and engineering project Co-ordination and Management Of procurement. Inspection, Construction, execution and commissioning on a turn-key basis. We take pleasure in introducing ourselves a leading multi-disciplined construction and engineering company in the field of mechanical, civil and structural engineering for power plant, steel plant etc. We are aspiring to diversify, have tremendous potential to grow and wish to concentrate on high potential area, new markets, projects. We have quality orientation and very able project management green field stage to commissioning. We have the expertise of computer aided design facilities and project management, continuous search for better and appropriate technology, standardization of project engineering and design and execution function to meet individual customer need.

HELPING YOU AND YOUR DREAM BECOMING TRUE..
